Re: Certification of Rural Indiana Carriers Pursuant to § 254(e)
and the FCC's Order in CC Docket No. 96-45 ✓

Dear Ms. Flannery and Ms. Salas:

In accordance with the Federal Communications Commission's May 23, 2001 Order¹ (the "RTF Order"), this letter is intended to communicate to you the names of those rural Indiana carriers that have been certified by the Indiana Utility Regulatory Commission ("IURC") to receive federal high-cost loop support for the calendar year 2002.

In an IURC Order issued on August 22, 2001 in Cause Nos. 42067/40785, the IURC prescribed forms to be completed and procedures to be followed by rural carriers seeking IURC certification. (See the enclosed copy of the August 22, 2001 Order.) Based on completed applications that were received, the IURC issued an Order on September 26, 2001 in Cause No. 42067 (also enclosed) identifying those rural Indiana carriers that had satisfied the certification criteria established by the IURC's August 22, 2001 Order.

¹ FCC's Fourteenth Report and Order, Twenty-Second Order on Reconsideration, and Further Notice of Proposed Rulemaking in CC Docket No. 96-45, and Report and Order in CC Docket No. 00-256, dated May 23, 2001.

No. of Copies rec'd 0
List A B C D E

Based on the IURC's September 26, 2001 Order, and on behalf of the IURC, I now certify to the FCC and USAC that all entities listed in Attachment A to this letter will be using federal high cost support (which includes high cost loop support, local switching support, high cost support received pursuant to the purchase of exchanges, high cost model support, and hold harmless support) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with Section 254 (e) of the Communications Act.

For your convenience, you will also find enclosed a list of addresses, contact names and phone numbers for the certified rural carriers.

If you require further assistance, please call me at (317) 232-4723.

Sincerely,

Joseph M. Sutherland
Secretary to the Commission

CAUSE NO. 42067

APPROVED:

BY THE COMMISSION:

Camie Swanson-Hull, Commissioner
Gregory S. Colton, Administrative Law Judge

AUG 22 2001

On May 23, 2001, the FCC issued an Order¹ assigning to state commissions the responsibility of certifying whether rural carriers are using federal high cost support in a manner consistent with the requirements of Section 254(e) of the Telecommunications Act of 1996. Pursuant to Section 254(e), carriers must use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." The FCC's Order provided that state certifications should be submitted by October 1, 2001, for payments to be made during the calendar year 2002.² If a rural carrier is not certified by its state commission, it will not receive federal high cost support.³

In order to carry out the FCC's directive, this Commission has determined that each rural carrier seeking certification should submit to this Commission, by September 6, 2001, a

¹ *In the Matter of Federal-State Board on Universal Service and the MAG Plan, Fourteenth Report and Order*, CC Docket Nos. 96-45 and 00-256.

² *Id.* at Paragraph 192.

³ *Id.* at Paragraph 193.

completed and notarized copy of the attached affidavit (see Attachment A), certifying that federal high cost support is being used consistent with Section 254(e). The affidavit should be accompanied by a completed copy of the questionnaire attached to this Order as Attachment B. Upon reviewing the application materials, and after further inquiry, if necessary, the Commission will timely forward an appropriate statement of certification to the FCC and USAC for all rural carriers that qualify.

Because this Commission must re-certify each qualifying rural carrier on an annual basis, we find that for future years, rural carriers seeking to qualify for federal high cost support should re-submit the attached two forms by July 15 of the year preceding the calendar year in which funds are to be disbursed.

Filing Requirements. Any filing made by a carrier pursuant to this Order should be submitted under Cause No. 42067-HLS and the subdocket number assigned to that carrier. In Attachment C to this Order, we assign subdocket numbers for the 38 rural ILECs providing service in Indiana. (It should be noted that each rural LEC's subdocket number corresponds to the subdocket number it was assigned in Cause No. 41052, wherein the Commission established procedures for the certification of eligible telecommunications carriers.)

In addition to using the assigned subdocket number, submissions from rural carriers should also append the following phrase to the above caption for 42067:

...AND IN PARTICULAR, THE APPLICATION
OF (name of rural carrier) TO BE SO CERTIFIED.

Disaggregation Election. The Commission is aware that the FCC Order also requires each rural carrier to elect, by March 15, 2002, whether to disaggregate and target federal support within that carrier's study area.⁴ Each carrier's election is limited to one of three "paths" authorized by the FCC Order. Depending on the election made by a carrier, further proceedings by this Commission may be necessary. Specifically, if a carrier elects Path 2, it will be necessary for this Commission to hold hearings in order to ascertain whether the carrier's Path 2 proposal is competitively neutral, as required by the FCC Order.⁵ To allow sufficient time for any hearings that may be necessary, the Commission finds that each carrier should, by November 1, 2001, inform the Commission of its election, using the form attached to this Order. (Attachment D.) Said elections will be processed under Cause No. 42067-DEL, and the subdocket number that has been assigned to that carrier in Attachment C to this Order.

IT IS THEREFORE ORDERED BY THE INDIANA UTILITY REGULATORY COMMISSION that:

1. All rural carriers seeking to qualify for federal universal service funding shall submit to the Commission, by September 6, 2001, completed copies of the two forms attached

⁴ Id at Paragraph 147.

⁵ Id at Paragraph 150.

to this Order. Completed forms shall be submitted to the Commission under the assigned subdocket number for Cause No. 42067-HLS.

2. All rural carriers seeking re-certification in future years shall re-submit the attached two forms by July 15 of the year preceding the calendar year in which funds are to be disbursed.

3. Each rural carrier shall, by November 1, 2001, notify the Commission of its election regarding disaggregation of federal high-cost support, using the form attached to this Order as Attachment D. Said notice shall be processed under Cause No. 42067-DEL and the carrier's assigned subdocket number.

4. The Commission's Secretary shall cause a copy of this Order to be mailed to each and every Indiana rural carrier.

5. This Order shall be effective on and after the date of its approval.

Federal High-Cost Loop Support

Disaggregation Election

Cause No. 42067-DEL

Pursuant to the FCC's May 23, 2001 Order⁸, each rural carrier is required to inform the FCC by March 15, 2002 which of three "paths" the carrier intends to follow with regard to the allocation of federal high-cost loop support. A carrier choosing Path One would in essence be deciding to average its federal support on a per-line basis for the carrier's entire study area. A choice of Path Two allows the rural carrier to disaggregate and target support to multiple levels below a wire center, subject to a state commission determination that the disaggregation plan is competitively neutral. Path Three permits self-certification by a rural carrier of a disaggregation plan that complies with a prior regulatory determination, provided self-certification guidelines are followed and notice is given to the state commission.

*Because Path Two and Path Three elections will require IURC action, the IURC would like to know, by **November 1, 2001**, which of the three paths each rural carrier plans to choose. Please complete the following form and send it to the IURC by November 1, 2001.*

STATE OF INDIANA
ORIGINAL
INDIANA UTILITY REGULATORY COMMISSION

[Handwritten signatures and initials]

IN THE MATTER OF THE COMMISSION'S) CAUSE NO. 42067
CERTIFICATION OF RURAL CARRIERS')
ELIGIBILITY TO RECEIVE FEDERAL HIGH-COST)
UNIVERSAL SUPPORT, PURSUANT TO THE)
TELECOMMUNICATIONS ACT OF 1996, THE)
FCC'S MAY 23, 2001 ORDER, AND OTHER) APPROVED:
RELATED FCC ORDERS.)

BY THE COMMISSION:

Camie Swanson-Hull, Commissioner
Gregory S. Colton, Administrative Law Judge

SEP 26 2001

On May 23, 2001, the Federal Communications Commission issued an Order¹ ("the FCC's RTF Order") assigning to state commissions the responsibility of certifying whether rural carriers are using federal high-cost support in a manner consistent with the requirements of Section 254(e) of the Telecommunications Act of 1996. Pursuant to Section 254(e), carriers must use universal service support "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." The FCC's RTF Order provided that state certifications should be submitted by October 1, 2001, for payments to be made during the calendar year 2002. If a rural carrier is not certified by its state commission, it will not receive federal high cost support.

In order to carry out the FCC's directive, this Commission issued a consolidated order in this Cause and Cause No. 40785 prescribing forms to be filled out and procedures to be followed by those rural carriers seeking certification. That Order was issued on August 22, 2001. To date, the Commission has received completed applications from 38 rural carriers seeking certification. The Commission is not aware of any rural Indiana carriers currently receiving federal high-cost support that have not submitted a completed application.

Upon reviewing the completed applications, the Commission now finds that all applications that have been submitted demonstrate the requisite compliance with the requirements of Section 254(e) of the Telecommunications Act of 1996, as interpreted by the FCC's RTF Order and this Commission's August 22, 2001 Order. More specifically, based on the completed applications, we find that all entities listed in Attachment A to this Order will be using federal high-cost support (which includes high-cost loop support, local switching support, high-cost support received pursuant to the purchase of exchanges, high-cost model support, and hold harmless support) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with Section 254 (e) of the Communications Act.

¹ In the Matter of Federal-State Board on Universal Service and the MAG Plan, Fourteenth Report and Order, CC Docket Nos. 96-45 and 00-256.

In accordance with the FCC's RTF Order, we direct the Commission's Secretary to inform the Universal Services Administrative Company ("USAC") and the FCC that this Commission has certified that the rural carriers identified in Attachment A to this Order have met the requirements of Section 254(e) and the FCC's RTF Order.

IT IS THEREFORE ORDERED BY THE INDIANA UTILITY REGULATORY COMMISSION that:

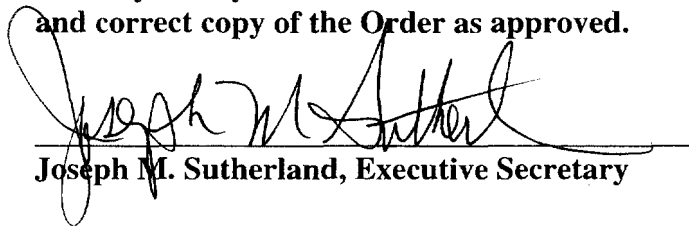

1. The rural Indiana carriers identified in Attachment A to this Order shall be, and hereby are, certified by this Commission as having satisfied the requirements of Section 254(e) and the FCC's RTF Order.
2. The Commission's Secretary shall inform the FCC and USAC by October 1, 2001 that the aforementioned rural Indiana carriers have been so certified.
3. The Commission's Secretary shall forward a copy of this Order to all carriers identified in Attachment A.
4. This Order shall be effective on and after the date of its approval.

MCCARTY, HADLEY, RIPLEY, SWANSON-HULL AND ZIEGNER CONCUR:

APPROVED:
